ORTON-GILLINGHAM LANGUAGE APPROACH

speech pathology TASMANIA

Advanced Morphology Training
1 Day

Empower educators to teach language and literacy to all, including students with dyslexia and other learning differences.

Orton-Gillingham Advanced Morphology is a one day training course designed to provide educators with strategies to enhance the higher level literacy skills of students with special emphasis on morphology for developing, decoding, encoding and vocabulary development.

Previous attendance and completion of the 5-day Orton-Gillingham Basic Training Program is recommended, but not an essential to completing this program.

This world-class training is on offer in:
by expression of interest via the QR code below.
